PROJECT DETAILS

Project Name : Jobsfactory.
Technology : Java - Selenium, Manual Testing, Automated Testing.
Team Size : 3
Site URL : <http://www.jobsfactory.in>

Jobs Factory is an online portal which is aimed at supporting prospective candidates looking for jobs in frontline roles in companies that demonstrate fair employer approach and policies. Traditionally, candidates for all frontline jobs are hired either through advertisement, campus hiring, and sourcing through employment exchange support. As a result many organizations have challenge in reaching out to the potential / deserving candidates and vice-versa owing to the inaccessibility for both to reach each other. This portal tries to bring both the stakeholders together.
